

MCHD Pillar Workshop

1. Purpose of Meeting:
 - a. First of two pillar meetings - discuss what information and data trustees want us to gather to evaluate and identify health focus priorities (pillars)
 - b. Second meeting... facilitator with current population health data and health gaps info helps us evaluate focus priorities
 - c. Determine what information we need to consider homelessness as a potential health priority

2. Background – prior factors for choosing health focus areas:
 - a. Key Data Example: Years of Potential Lives Lost (YPLL) vs. Causes of Mortality
 - b. Sources: Community Health Assessments, WellFlorida, Robert Woods Johnson (what additional data do trustees need)
 - c. Focus on health areas that draw-down additional funds (braided funding)
 - d. Ensure our investments do not reduce or replace existing funding
 - e. Focus on key health gaps with insufficient funding for uninsured and underinsured
 - f. Focus on short-term windows of opportunity to build long-term capacity (e.g., CF nursing, Hampton Center dental, Mary Sue Rich Community Center) or gap funding/resources for crises responses (e.g., DV, COVID supplies for hospitals and nonprofit support)
 - g. Focus on health areas that cause our citizens to die prematurely
 - h. Focus on prevention of chronic health conditions as well as treatment
 - i. Focus on areas that do not compete with AdventHealth’s core services

3. Open Discussion
